ABSORBENTS

SpilMax® 400gsm PADS ● ● ● ●

SpilMax® Pads are commonly used to capture small leaks or spills from machinery, pumps and hoses. Made of polypropylene, each pad can absorb up to 1L per saturation. Available in Oil & Fuel or UniChem.

Product	Length	Width	Capacity	Pack Qty
400gsm Pads	480mm	430mm	1L per pad	100
400gsm Roll	43m	960mm	200L per roll	200 pads / roll

SpilMax® MINI BOOMS ● ● ●

SpilMax® Mini Booms are commonly used to circle or bund leaking drums or machinery or placed between a spill and a stormwater drain. Made of polypropylene, available in a variety of sizes. Available in Oil & Fuel or UniChem.

Product	Length	Diameter	Capacity	Pack Qty
Mini Boom	1.2m	75mm	4L per boom	10
Mini Boom	2.4m	75mm	8L per boom	10
Mini Boom	3m	75mm	10L per boom	6

SpilMax® FLOATING BOOM ● ●

SpilMax® Floating Booms absorb oil and fuels while repelling water, making them perfect for marine use. Manufactured with UV resistant tough spun bonded outer mesh encasing a poly particulate. Snap hooks for easy connection of multiple booms. Strengthened by a nylon rope to ensure lasting durability and ease of retrieval. Available in Oil & Fuel only.

Product	Length	Width	Capacity	Pack Qty
Floating Boom	3m	125mm	20L per boom	4
Floating Boom	3m	200mm	35L per boom	4

SpilMax® PILLOWS ● ● ● ●

SpilMax® Pillows are commonly used under machinery to contain leaks and clean spills quickly. Made of polypropylene to ensure a long life span. Available in Oil & Fuel or UniChem.

Product	Length	Width	Capacity	Pack Qty
Pillow	400mm	500mm	4L per pillow	10

SpilMax® WIPES ●

Spilmax® Wipes are a Universal wipe typically used to clean up small spills and wipe down tools and equipment. They can also be used on drum tops to absorb and collect drips. Available in Universal only.

Product	Length	Width	Capacity	Pack Qty
200gsm Wipe	480mm	430mm	500ml per wipe	200

SpilMax® PREMIUM PLUS

SpilMax® Premium Plus floor sweep is typically used for hydrocarbon based spills. This product is manufactured from a special selection of recycled organic cellulose matter. Premium Plus Floor Sweep has a rapid absorption rate and encapsulates liquids so they cannot leach back into the environment. This product meets the EPA criteria for disposal at landfill.

Packaged in 5kg and 10kg bags

SpilMax® NATURA-SORB

SpilMax® Natura-Sorb floor sweep is typically used for hydrocarbon based spills. Manufactured from recycled organic fibres which are treated, pelletised and processed to provide a granulated floor sweep. Natura-Sorb has added weight and a lower dust factor for easy application. This product meets the EPA criteria for disposal at landfill.

Packaged in 5kg and 10kg bags

SpilMax® REMEDIAL

Remedial floor sweep is designed for use on contaminated soil such as lawn areas. It is a bioremediation product. Once added to contaminated soil, the enzymatic action of the bacteria accelerates the natural decomposition of hydrocarbons, effectively returning the altered environment to its original condition with no disposal costs. This product meets the EPA criteria for disposal at landfill.

Packaged in 10kg bags

MINERAL SPONGE

A zeolite absorbent with a large internal surface area of up to 145m²/g.

- For use on chemical spills
- Contains no chemicals
- Exceeds EPA leachate requirements
- Large internal surface allows this material to absorb almost 100% of its weight in liquid
- De-dusted to make handling and clean up easier and safer
- Absorbs immediately on contact
- Absorbs odors and vapours as well as liquid
- Suitable to use in windy areas

Packaged in 15kg bags
